Re: Beaver Creek Protection and Enhancement Plan and Raptor Survey Requirements, Task ID #3587,
Hidden Splendor Resources, Inc., Horizon Mine, C/007/020

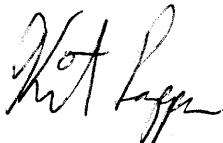

Dear Mr. Haddock:

Hidden Splendor Resources, Inc. is respectfully requesting an extension on the above referenced Task ID. The reason for this request is that in the course of our current mining, we have encountered a substantial fault zone in the 3rd West Mains Section. At this time we are evaluating several different options for continued mining operations. This will require re-orienting the projected pillar panels. Until a determination is made, it is impossible to submit a current, up to date mine map as was requested in your deficiency letter dated August 19, 2010.

We will strive to resolve this issue in as timely manner as is possible.

If you have any questions or comments, please feel free to contact me at 435-636-0820.

Sincerely,

Kit Pappas
Manager of Environmental and Engineering Services
